DETAILED ACTION

1. Claims 1-15 are pending in the application.

Specification

2. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Claim Objections

3. Claim 15 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in alternate only. See MPEP § 608.01(n).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 2, 4, 6-8 and 11-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2 and 8, the terms ----water immiscible organic solvents and less polar solvents----- are indefinite since specific solvents are not defined.

In claims 6 and 12, the term ----selected from -----needs to be deleted since only ethyl acetate is mentioned.

In claim 11, the term ----selected from -----needs to be deleted since only toluene is mentioned.

Art Unit: 1625

In claims 7 and 13, line 2, the term ---solvents include solvents selected aliphatic hydrocarbon ---- is vague since its meaning is not clear. Also, is petroleum ether aliphatic hydrocarbon?

In claim 14, the term ----substantially as herein described -----is vague and indefinite since its meaning or the actual intent is not clear.

In claim 15, the term ----substantially as herein described in examples 2-10-----is vague and indefinite since its meaning or the actual intent is not clear. Also, the examples 2-10 are missing in the claim.

Claim 4 recites the limitation "halogenated solvent" in claim 2. There is insufficient antecedent basis for this limitation in the claim.

Double Patenting

6. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

7. Claim 14 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim

1. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

8. Claims 3, 5, 9 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claim 1 is allowed.
